NOTE: Starting with Volume XXVI, the Index to *The Antioch Review* is in two sections: an Author-Title Index and a Subject Index. It is hoped that this index will be more useful by being closer in style to that of the *Social Sciences and Humanities Index* and the 26-year cumulative *Index to the Antioch Review* now in preparation.

The Author-Title Index includes all articles, poems, stories, and review articles published during the year. Books reviewed are listed by title and by author (in small capitals to distinguish them from other authors).

The Subject Index includes only articles and book reviews; it does not include stories, poems, or editorials. Subject classifications follow as closely as possible those of the *Social Sciences and Humanities Index*.
